Sir:

Prior to examination on the merits, please amend the
referenced application as follows:

IN THE CLAIMS:

Please add claims 28-30 as follows:

a. 28. An inductive plasma processor for processing a
workpiece, comprising a plasma excitation coil, the coil including
at least one winding, a source for supplying power to the at least
one winding, impedance arrangements respectively coupled with the
parallel windings, the source frequency and the length of the at
least one winding being such that there are no substantial standing
wave current variations along the length of the at least one
